

INTRODUCTION

I am a recent Software Engineering graduate from Can Tho University with a strong passion for .NET development. I have a solid foundation in object-oriented programming, database management, and web application development. I am looking for an opportunity to grow as a .NET developer and contribute to a dynamic team. I am a quick learner, a problem-solver, and highly motivated to enhance my expertise in backend development .

EDUCATION
BACKGROUND

Can Tho University | 2020-2025
Bachelor of Software Engineering – GPA 2.72

TECHNICAL SKILL

- Fundamental awareness with HTML, CSS, SCSS, JS, TS, Tailwind.
- Basic knowledge of SQL and NoSQL databases.
- Limited experience in ReactJS, NextJS.
- Hands-on experience with ASP.NET Core, Blazor and C# programming.
- Understanding of system design and analysis

WORKING
EXPERIENCE

- Internship – VASD Can Tho | 05/2024 – 07/2024
- Analyze system functional requirements
 - Database design
 - Write APIs and design front-end for the website

PROJECT

Hospital equipment management | 2024

Github link: <https://github.com/TranQuocBao18/EMS>
Front-end: Blazor, AdminLTE template.
Back-end: ASP .NET core web API.
Database: SQL Server.
Description: Medical equipment management system, helps hospitals track the status and usage history of equipment.

CAREER GOAL

I aim to enhance my backend development skills, specializing in ASP.NET Core and database management, while also expanding my expertise in frontend technologies. My ultimate goal is to become a full-stack developer, capable of building scalable and high-performance web applications.
